story 1

More than 1 billion consumers currently use iPhones. Since its initial launch more than 1.9 billion units have been sold worldwide.

iPhone sales generate \$205 billion revenue for Apple in 2022, more than Microsoft's total revenue.

Comparative analysis amongst various other leading brands in the smartphone industry shows that Apple's market share is significantly higher.

Although the iPhone isn't far behind in the competition, it's yet to scale up its market share in some regions like France.

story 1

More than 1 billion consumers currently use iPhones. Since its initial launch more than 1.9 billion units have been sold worldwide.

iPhone sales generate \$205 billion revenue for Apple in 2022, more than Microsoft's total revenue.

Comparative analysis amongst various other leading brands in the smartphone industry shows that Apple's market share is around 15%.

Although the iPhone isn't far behind in the competition, it's yet to scale up its market in India.
